

**STATEMENT OF WORK**  
**Pasture and Hay Planting (512)**  
**Missouri**

**These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.**

---

**DESIGN****Deliverables:**

1. Design documents that demonstrate criteria in practice standard have been met and are compatible with planned and applied practices
  - a. Practice purpose(s) as identified in the conservation plan.
  - b. List of required permits to be obtained by the client
  - c. Practice standard criteria related computations and analyses to develop plans and specifications including but not limited to:
    - i. Required seedbed condition and preparation methods
    - ii. Fertilizer and agricultural lime needed (based on soil tests when applicable)
    - iii. Seed amendments needed
    - iv. Variety or origin and amount (Pure Live Seed) of each species to be planted
    - v. Planting dates and method of seeding
    - vi. Instructions as needed for placing different seed types (i.e. fluffy, large, small, slick and dense) in suitable drill boxes
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits.
3. Operation and maintenance plan
4. Certification that the design meets practice standard criteria and comply with applicable laws and regulations
5. Design modifications during installation as required

---

**INSTALLATION****Deliverables**

1. Pre-application conference with client and contractor
2. Verification that client has obtained required permits
3. Staking and layout according to plans and specifications including applicable layout notes
4. Identify fields where practice to be applied on a farm or ranch plan map.
5. Application inspection
  - a. Actual materials used
  - b. Inspection records
6. Facilitate and implement required design modifications with client and original designer
7. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation
8. Certification that the application process and materials meets design and permit requirements

---

**CHECK OUT****Deliverables**

1. Records of application
  - a. Extent (acreage) and location of practice units applied
  - b. Date planted
  - c. Final quantities of seed and fertilizer used
2. Certification that the application meets NRCS standards and specifications and is in compliance with permits
3. Exit conference with client and contractor.
4. Progress reporting

---
